## Práctica Tablas índices particionados

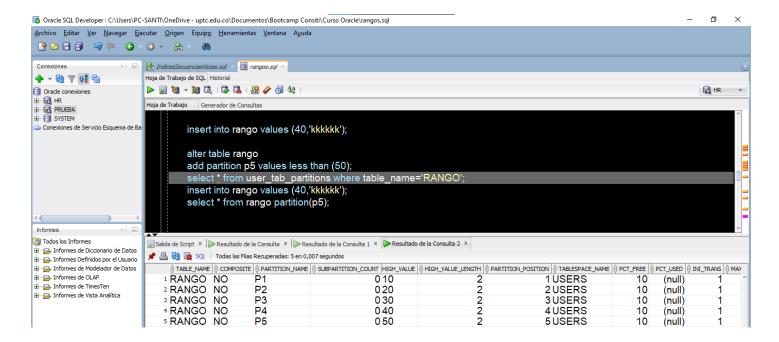

```
| Select * from rango; | select * from user_part_tables; | select * from user_tab_partitions where table_name='RANGO'; | insert into rango values(21, 'aaa'); | select * from rango: |
```

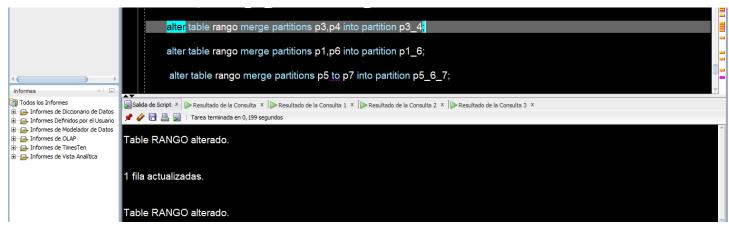

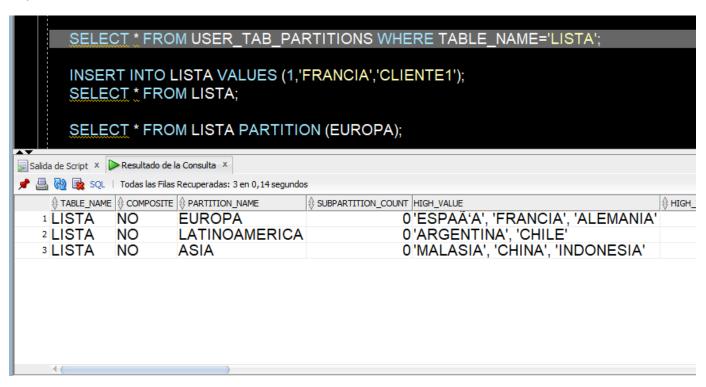

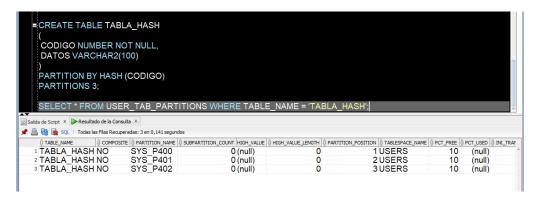

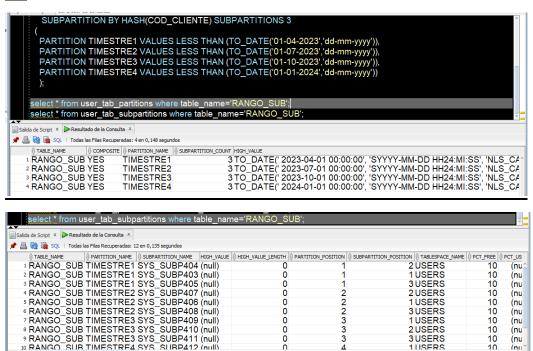

## <u>175</u>

## 176

```
select * from user_tab_partitions where table_name='RANGO_LISTA';
     select * from user_tab_subpartitions where table_name='RANGO_LISTA';
     INSERT INTO RANGO_LISTA VALUES(1,'AAAA',SYSDATE,'USA');
     INSERT INTO RANGO_LISTA VALUES(2,'BBBB',SYSDATE,'CHILE');
     SELECT * FROM RANGO_LISTA;
